

Environment Policy Statement

We are all responsible for protecting and improving the environment

The aim of this policy is to define RG's commitment to ensure good environmental practice, and thereby help to protect and improve the environment locally and nationally. In delivering catering services to Train Operating Companies,

RG will:

- Comply with all relevant environmental law, regulations and codes of good environmental practice, and any other appropriate requirements where applicable
- Demonstrate our commitment to preventing pollution of the environment through a range of activities including reducing consumption and minimising waste;
- Integrate environmental management with the safe and efficient operation and delivery of services, treating all legal obligations as a minimum standard.
- Ensure that staff, customers, suppliers and visitors are aware of our environmental policy;
- Set and review its objectives and targets on a regular basis, via the review team.
- Promote, share and communicate good practice in environmental management and look at areas for continual improvements
- Promote environmentally friendly solutions to customers

This Environment Policy Statement will be reviewed annually, with the current version publically available via our website, or on request.
